Work Experience

Profile

I'm a thinker, maker, and doer—endlessly curious and relentlessly intentional. I lead teams and client relationships as much as I direct pixels, moving fluidly across broadcast, brand, and interactive motion. From style frames and 3D simulations to scripted animation systems and immersive digital experiences, I thrive in the "ooh" moment: the pitch that lands, the reveal that gets a reaction. I build that impact through craft, collaboration, and momentum. Off the clock, you'll find me on the basketball court at lunch, bringing that same fast-paced, collaborative energy back to the studio because for me, every project is ALWAYS IN MOTION.

I believe I could fit easily into your team and impact my creative mind to better the brand.
